FLUSH SYSTEMS

2023 SPRING / SUMMER

IMPECCABLY STYLED BATHROOM ESSENTIALS

Our cisterns and frames have been designed to save water, maximise space and offer installation flexibility for a variety of bathroom layouts.

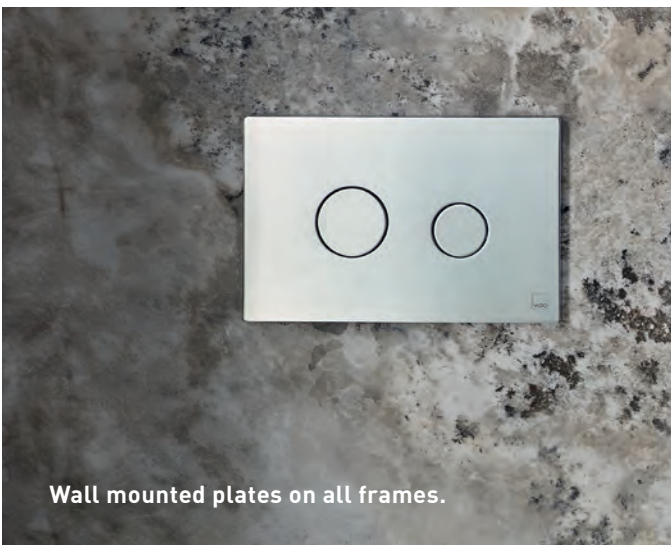

Our pneumatic flush plates are available with round or rectangular button options and colours from high-shine chrome to our premium Individual brushed finishes, for a coordinated bathroom design.

FLUSH SYSTEMS

A stylish alternative to traditional toilet cisterns, designed for ease of fit, ease of use and provides a minimalistic finish in all bathroom design schemes.

The short cistern is a versatile choice for the modern bathroom, as the flush plate can be mounted to the front or the top of the frame.

Wall mounted plates on all frames.

PLATES

- Premium pneumatic flush actuation delivers smooth operation.
- Dual flush function allows you to select the volume of water required to avoid unnecessary water usage.
- Flush volume pre-set to 6/3 litres with the option to reduce to 4/2.6 litres to hit stringent Part G requirements.
- Available in all brassware colours, for a coordinated bathroom finish.
- Button sizes comply with the latest advice from WRAS on dual flush standards, for ease of use.

FRAMES

- Compatible with a wide variety of toilets, due to a high weight bearing frame of 400kg.
- Versatile frame design, allowing for height adjustment up to 250mm.
- Designed to accommodate compact, wall hung pans to maximise space and create the illusion of a larger bathroom (WG-095-F/C + WG-095S-F/C).
- A compact holding frame is included for short cisterns for an easy fix to stud walls; ideal for back-to-wall installations (WG-095S-C).
- All cisterns are designed to comply and meet with EN 14055:2018.
- Engineered with industry-leading, WRAS approved componentry.

Our robust, steel frame has a corrosion resistant, durable coating for peace of mind.

Concealed frame installation allows for flexibility in small bathrooms.

Image to show standard concealed frame and cistern, this would not be visible once installed.

FRAMES AND CISTERNS

Our frames are suitable for most toilet types, from wall hung to back-to-wall installations. Simply select the frame you need and then choose your button style and finish.
